**To the President of the Executive Council,  
Province of Alberta,  
Edmonton, Alberta.**

The Workmen's Compensation Board has the honour to submit its report for the year ended December 31, 1952, in accordance with Section 50, Subsection (2) of The Workmen's Compensation Act.

Under The Workmen's Compensation Act 1918, workmen's compensation came into effect on August 1, 1918, and from that date until December 31, 1952, there have been 537,031 accidents reported to the Board. The expansion of industrial activities in the Province has been exceedingly rapid during the past ten years and the following summary sets out the number of employers registered with the Board and the assessable payroll as shown by the Board's records for the years 1943 to 1952:

Year	Number of Employers	Payroll
1943	6,292	\$135,950,744.00
1944	6,648	145,735,864.00
1945	7,438	148,717,385.00
1946	8,677	178,561,773.00
1947	9,448	201,623,155.00
1948	10,241	255,656,020.00
1949	11,162	299,906,225.00
1950	11,992	327,466,661.00
1951	12,323	376,138,442.00
1952	13,261	425,000,000.00 (estimated)

The number of accidents reported each year to the Board also increased greatly during the above period and the following is a list of the accidents reported during those years from which it may be noted that the number of accidents reported to the Board during the year 1952 is double the number of accidents reported in 1943:

Year	Accidents Reported	Fatalities
1943	19,700	73
1944	19,286	48
1945	19,154	74
1946	23,068	64
1947	25,864	87
1948	28,557	101
1949	32,396	115
1950	33,337	120
1951	35,804	111
1952	39,520	92

The industrial activities of the Province continued to expand during the year 1952 with a resultant increase in the number of claims reported to the Board. It is encouraging to note, however, that proportionately the increase in the number of claims has been less than the increase in the number of workmen employed in industry. In order to cope with the additional work, the Board has been compelled to again increase the size of the staff. The Board is pleased to report that during the year 1952 the large volume of work entailed was satisfactorily dealt with by a loyal and efficient staff.

The Claims staff has continued to deal with the large number of accidents in a very efficient manner and has endeavoured at all times to see that the claims are dealt with promptly and payments made to the injured workmen as soon as possible after all reports are received.

The Assessment Department has maintained the auditing of employers' payrolls at a high level notwithstanding the increase in the number of employers coming within the scope of the Act.

The various industrial areas of the Province were visited regularly by Medical Officers of the Board to ensure that injured workmen were receiving adequate medical and hospital treatment and to personally follow their progress.

The work of the Accident Prevention Department of the Board was further expanded during 1952. Safety and First Aid Schools for workmen and employers were conducted in Edmonton through the year. In addition First Aid Schools were arranged in a number of localities. The Accident Prevention Department assists in promoting and maintaining interest in safety in industry on the part of both employers and workmen and in this connection is receiving more and more co-operation from those concerned. The employment of full-time Safety Supervisors and the organization within industry of safety associations has increased. The regular meetings of safety committees and supervisory personnel has continued. The beneficial results of the efforts expended on accident prevention programs in recent years are becoming apparent with a resultant overall benefit to both industry and labour.

The policy of exhibiting protective equipment, mechanical guards, etc. and distributing safety literature by the Accident Prevention Department, at as many of the summer fairs held in the Province as could practicably be done, was again carried out.

Mine Rescue training was carried on throughout the year by the Mine Rescue Department of the Board. 38 miners qualified for their Mine Rescue Training Certificates and many others completed their first aid training. Regional competitions in mine rescue were not conducted during 1952 but the Board proposes to conduct competitions during 1953.

The Board must report the retirement of Mr. John McAndrew, General Mine Rescue Superintendent, on July 19, 1952, after many years of faithful service.

The construction of the treatment and administration wings of the Rehabilitation Clinic commenced in April, 1951, was completed late in December, 1952. The first patient was admitted for treatment on December 1, 1952, and by December 31, 1952, thirty-three were under treatment at the Clinic.

The Board's program of retraining permanently disabled workmen so as to fit them for gainful employment and give assistance where required to temporarily disabled workmen was continued during 1952.

During the year the Board visited various districts in the Province to interview employers, workmen and their representatives, to discuss matters coming under the Act.

The Special Committee of the Legislature to enquire into Workmen's Compensation set up in the 1951 session of the Alberta Legislature submitted its findings and recommendations to the 1952 session of the Legislature. As a consequence The Workmen's Compensation Act was amended providing for increases in benefits payable to injured workmen or their dependants.

The Board takes this opportunity of expressing its thanks to the members of the staff for their loyal co-operation and efficiency.

The foregoing is respectfully submitted.

C. M. Macleod, Esq., Q.C.,  
 Chairman,  
 The Workmen's Compensation Board,  
 Edmonton, Alberta.

I have audited the books and records of The Workmen's Compensation Board for the year ended December 31, 1952, and the following report and undernoted statements are submitted herewith:

STATEMENT	PARTICULARS
1.	Balance Sheet
2.	Statement of Operating Reserve
3.	Summarized Statement of Transactions
4.	Provisional Financial Statement by Classes
5.	Statement of Transactions in Respect of Prior Years by Classes
6.	Statement of Administrative and General Expenses including Expenditure on Mine Rescue Stations
7.	Statement of Provision for Silicosis
8.	Statement of Provision for Pensions
9.	Statement of Reserve for Rehabilitation
10.	Statement of Reserve for Disasters
11.	Statement of Reserve for Enhanced Disabilities
12.	Statement of Reserve—Section 33-(l), (k), (1943 Act)

### Result of Operations

Operations for the year under review resulted in provisional surpluses of \$964,397.42 in respect of 1952 and \$1,979,291.95 in respect of 1951 and prior years, details of which are shown on Statements 4 and 5 respectively. The provisional surpluses have been consolidated on Statement 3 and carried to operating reserve as shown on Statement 2.

In arriving at the operating results in respect of Class 13-2, the fiscal year of which, for the Board's purposes, is the first of November to the following thirty-first of October, assessment revenue applicable to the twelve month period ending October 31, 1953, and all expenditure during the months of November and December, 1952, have been deferred to the next fiscal period; and revenue of 1951 applicable to the twelve month period ending October 31, 1952, and all expenditure during November and December, 1951, deferred as at December 31, 1951, have been brought into account in order to show all transactions in their respective periods.

Assessment revenue shown on Statement 4 is based on Actual payrolls for 1952 so far as they are known to the Board. Minor adjustments may be necessary when all information is available and payroll audits completed.

Rebates to employers who entered into arrangements, approved by the Board, for furnishing medical aid to employees, amounted to \$47,040.09 and were charged against assessment revenue.

Payments for medical services in respect of accidents of 1943 and prior years, amounting to \$12,881.84, have been charged to the reserve for rehabilitation.

During the year under review provision for silicosis has been charged only to those classes that have experienced silicosis as an industrial disease.

Additional pension payments amounting to \$34,872.14 made under authority of Section 33 of the Act have been brought into Statement 5 as an adjustment of provisional class balances. Due to the difficulty in determining any continuing liability under this Section of the Act requirements are being reflected on a current cost basis.

## **ASSETS**

### **Assessments receivable, less reserve**

Assessments receivable have been adjusted to include assessments based on actual payrolls, so far as they are known to the Board. Minor adjustments may be necessary when all information is available and payroll audits completed. The reserve for doubtful assessments receivable amounted to \$46,778.49 at December 31, 1952, and is considered adequate. During the year under review accounts totalling \$2,999.10 were written off as uncollectible. Recoveries in respect of accounts written off amounted to \$678.21.

### **Advances to employees secured by chattel mortgages**

Advances to employees secured by chattel mortgages amounted to \$8,798.14. Repayments have been made as required.

### **Investments**

Investments are held in safekeeping, under joint custody of two officials of the Board, at the Bank of Montreal, Edmonton, and were verified by actual examination. Investments all of which are registered in the name of the Board with the exception of \$300,000.00 par value Province of Manitoba interim certificates and \$140,000.00 par value Province of Alberta debentures are summarized hereunder:

	<b>Par Value</b>	<b>Book Value</b>

## LIABILITIES AND RESERVES

### Deferred income, net

Assessments levied in respect of Class 13-2 being for the twelve months period ending October 31, 1953, have been deferred in full until the next fiscal year. Likewise, all expenditure during November and December, 1952, regardless of year of occurrence of accident has been deferred. The net revenue, \$402,771.34, is shown on the attached balance sheet under the above caption.

### Estimated merit rebates

Merit credits to be allowed in respect of the year 1952 could not be determined prior to the closing of the Board's accounts, but provision, in the amount of \$813,590.00 has been made as an estimate of requirements.

### Claims pending and unfinalled claims

The liability in respect of the above is an estimate, based on opinion of medical and administrative officials of the Board and the experience of certain previous years, of the amount required to meet all costs in respect of claims pending and unfinalled claims with the exception of claims arising from silicosis and those in respect of self-insurers' employees.

### Silicosis

The liability in respect of the above is an estimate by officials of the Board of the amount required to meet all costs in respect of claims pending and unfinalled claims arising from silicosis.

### Pensions

An evaluation of the Board's liability with respect to pensions was made as at December 31, 1948, by officials of the Board. Based on the assumption that interest earnings would be maintained at the required capitalization rate of 3%, which has been the case, the amount provided by the Board in respect of pension liability as at that date was sufficient to meet requirements.

Due to the difficulty in determining any continuing liability to the Board for additional pension payments authorized under Section 33 of the Act no specific provision has been made therefor. As stated elsewhere in this report these payments are reflected in the Board's accounts on a current cost basis.

**Reserve for rehabilitation**

The charges to classes re single fatal accidents of prior years less pension awards to dependants have pursuant to 1952 amendments to the Act been credited direct to the reserve for rehabilitation. In addition, provision in the amount of \$79,776.00 was made during the year.

As stated elsewhere in this report payments for medical services in respect of accidents of 1943 and prior years have been charged to the reserve following the transfer, as at December 31, 1948, of the amount standing to the credit of the reserve for medical aid to the reserve for rehabilitation.

Expenditures during the year with respect to the construction of and equipment for the rehabilitation centre amounting to \$382,606.98 were charged to the reserve. These assets are not reflected in the attached balance sheet.

**Reserve for disasters**

There is no basis upon which an opinion could be formed as to the adequacy of the reserve.

**Reserve for enhanced disabilities**

This reserve has been established under authority of Section 51-(l), (h) of the 1948 Act as amended, 1952, by transfer of the balance of \$100,000.00 as at January 1, 1952, in the former Reserve—Section 33-(l), (n). In addition, provision in the amount of \$79,776.00 was made during the year.

Charges against the reserve for costs re enhanced disabilities amounted to \$29,842.72 during the period under review.

**Reserve—Section 33-(l), (k), (1943 Act)**

The reserve, which under Section 44-(8) of the 1948 Act is to be transferred to the Accident Fund, is presently being held to provide for adjustments required with respect to pensions suspended during the war years and paid into the reserve under Section 33-(l), (l) of the 1943 Act.

**Operating reserve**

The reserve represents the balance at credit of classes after provision for reserves as shown on Statement 2.

**GENERAL**

Subject to the foregoing report, I certify that, in my opinion, the attached balance sheet is properly drawn up so as to show the true financial position of The Workmen's Compensation Board as at December 31, 1952, according to information and explanations given to me and as shown by the books of the Board and the accompanying statements of revenue and expenditure correctly set forth the result of operations for the year ended at that date.
